

LEGAL RESEARCH HAS NEVER BEEN SO REWARDING

\$100,000 FOR A FEW MINUTES OF RESEARCH!!

EVERY LAWYER KNOWS That the federal legal system is a civil law system; that federal law can only be created by legislative act; that tax laws are strictly construed; that taxes must be plainly and clearly laid; and that, therefore, there can be no implied or inferred liability for any tax. **So . . .**

Where is the law that plainly and clearly makes the typical working American LIABLE for the federal income tax?

A lot of people want to know. They have asked the IRS, but it says it is not required to tell. Is it a secret?? Is there any "classified" law?

They have asked their congressmen and senators, and none have been able to cite one—one senator has replied that there is no such law and others refuse to answer at all.

One organization, Truth Attack (www.truthattack.org), will pay you \$100,000 for finding such a law! All you have to do is show them the statute that plainly and clearly makes the typical working American **LIABLE** for the federal income tax. You could earn ***\$100,000 FOR A LITTLE RESEARCH!!***

Can't find it? Find out why. Download The Memorandum at www.TruthAttack.org. It's free!
