

WELCOME PR/MEDIA TRUTH TROOPER

Thank you for volunteering your special skills and connections to help in our upcoming campaign to end the fraudulent and unconstitutional application of the income tax to labor. With your help we can succeed.

Public Relations is a vital part of our campaign to give the IRS and the federal government a Truth Attack. So, as a Public Relations expert or publicist (one who is working with or in the news media) your skills and contacts are vital to our success. In addition to those actions all of us will be taking we need for you to get the issues we are presenting to the fore of the public's awareness.

The Message is simple:

There is no Law! and My Wages Are Not Income (For Nothing)!

We do, of course, want you to participate in all aspects of the campaign, including letter writing and other activities set out in the Kombat Kit. But because of your skills and contacts, we are also asking a little more.

The major media will not touch this issue unless the general public makes it an issue, so our main thrust must start with local media, such as local and regional newspapers, city magazines and local TV and radio.

A list of the things you can do that the rest of us are not equipped to do:

- Prepare a list of all your media network for easy reference;
- Assemble examples of IRS abuses of which you are aware and write news stories on them (if none of recent date, write a composite story, IRS Abuses in general, using past events for the core of the piece);
- Write and prepare for publication articles and news stories, such as "Documentary Triggers Groundswell", "IRS Conducting Nationwide Gag Campaign", "Political Prisoners In U.S.", "Government Unable to Show

Law Making Most Americans Liable for Income Tax", "Questions of Income Tax Validity Hampers State Tax Collections";

- Submit your stories to those in your network, twisting arms, if necessary;
- Check the list of ongoing IRS criminal and injunction proceedings on the website ("Hot Spots" at TruthAttack.org) for any proceedings in your area and write and submit articles on those proceedings, pressing for coverage of the proceeding from the victim's standpoint;
- Where local news media will cover such events, make them aware of the importance of pressing any IRS spokesman (don't let them slide off the question) for any law making the average working American liable for the income tax and arrange for interviews with T-Trooper lawyers in the area who can verify that there is no law;
- Assist other Truth Troopers in your area in publicizing FREE Seminars and demonstrations;
- Prepare and distribute press releases announcing events in advance and use your media contacts to encourage TV, radio and newspaper coverage;
- In your articles and stories always employ the terms described in the Kombat Kit;
- Assist other Truth Troopers in writing letters to the editor;
- Forward all published articles to PR@TruthAttack.org; and
- Any other public relations and media attention actions in your personal arsenal of tricks of the trade.

We are grateful to have you on the team. With your help we will succeed.
